

Playscapes/Playsets-Wood

Hillside Hideaway still offers Playmor Swing Sets. Each year we continue to make quality improvements to our playsets. Plus, there are several new offerings for the new year. This information is in a separate, color brochure (or you can visit our website). Our children's playsets (or playscapes) range from the standard A-frame swing to very large towers, boats, trains, tractors and trucks. We have many playsets at our display park. You are encouraged to come out and "let the kids run". That is the best way to see what fits the desires of your family. The list of attachments and accessories for the playsets is endless.

Unlike other brands, you won't have to spend your whole weekend trying to turn a pile of lumber into a playset! These are designed with the "do-it-yourselfer" in mind. You can buy the kit, we provide the instructions and you can build your own. Or, within a few hours, our fast, professional installers will assemble and anchor your playset. Either way, we deliver.

Special Large Playsets

These playsets require more space than most of the other playsets. The ark and space ship accept swing attachments to make them even more versatile.

Tractor with Wagon

The Tractor measures 5x9'. The Wagon measures 5x8'. These come standard with 3 ladders, steering wheel and walkway. A canopy and two 10' wave slides are optional.

Monster Truck

Monster Truck measures 7x12'. It comes with steering wheel, stick shift and 8' wave slide. Two 10' wave slides are optional.

Train

The Train measures 3'x35' long. It is built on wood rails. The engine has a steering wheel and bell. The box car has an 8' slide.

Special Large Playsets	
Noah's Ark - 7'x14' (built or kit)	\$3,238
Canopy for Small Ark	\$263
Noah's Ark - 8'x20' (built or kit, shipping addl.)	\$6,431
