

Benches

With the Bench option, you can have from one to seven benches fastened to the inside of the gazebo. This is a nice option for public gazebos in parks or commercial locations.

Site Preparation and Installation

Refer to the "Site Preparation and Access for Delivery of Buildings, Gazebos and Playsets" for more details.

Whenever possible, we try to deliver your gazebo fully assembled. Where the site requires it to be built on site, there is an additional charge or you can assemble it yourself. See chart for details. We will provide a free site inspection if you have concerns about your property or aren't sure if we can get an assembled structure to your location.

Spindle Options

The straight spindles can be replaced with turned Spindles (colonial styling). 2x2 spindles and 2x3 spindles are also available on pine gazebos.

Colonial Spindles With Deluxe Railing (pine)

Straight Spindles With Classic Railing (pine)

Pine Gazebos

To ensure lasting satisfaction, only the finest treated, number one grade yellow pine is used. Lumber is kiln-dried before and after treatment to prevent cracking or warping that often occurs with lower grades of lumber. You will immediately notice the detailed construction, from the full 2x6 mitered and rounded edges. We use stainless-steel screws for maximum strength and corrosion resistance. For additional protection you may choose one of our optional sealers.

There are several configurations for pine gazebos. The following lists describe the differences.

Classic Gazebo consists of:

- 1/2"x3" spindles with rounded edges
- 2x6" base and decking
- Stainless steel screws
- Straight railing (no scalloped edges)
- 5/8" plywood ceiling with asphalt shingles (30 year).
- Straight floor slats (no mitered or pie-shaped pattern)
- Cupola
- Five-year limited warranty on complete structure.

Deluxe Pagoda Gazebo consists of:

- Same as Deluxe with a Double roof.

Deluxe Gazebo consists of:

- Same as Classic with the following additions:
- Scalloped railing
- Choice of:
Slatted ceiling with cedar shake shingles (allows shingles to "breathe").
5/8" tongue and groove pine ceiling with asphalt shingles.
- Pie-shaped floor pattern

Deluxe Colonial Gazebo consists of:

- Same as Deluxe with a turned spindles and posts.
