English Cottage (Poolside) & English Garden (Mini-Garage) Series

This is a new option for both poolside and mini-garages. This series adds several enhancements to the exterior of the building. The trim and fascia are wider. Overhang is added to the gable ends of the structure. Louvered vents are used in place of the standard aluminum vents. The “cross-buck” is removed on the door(s) and the door trim has an arch at the top. The hardware is also upgraded with larger, black hinges and a matching handle. Shutters and flower boxes are upgraded to enhance the appearance. The roof pitch of the mini-garage is also changed to 9/12. See photos.

NOTE: For any English Cottage, English Garden series or potting shed, you can add a 200 Composter for a discounted rate!
