Cabins

Hillside Hideaway offers cabins that are custom made to your specifications. You have a choice of three types of siding: T-1-11 painted or stained, vinyl or 6" log siding. They normally have 7' sidewalls to make them easier to transport fully assembled. We can also build them on site for an extra charge or you can assemble them yourself.

The 12x24' office at our display park is one of these cabins, fully insulated, wired, lined with car siding, heated and air conditioned. It is on skids, so it is fully portable.

11x24 Vinyl Cabin

Log-sided Cabin (with loft over porch) with asphalt roof and standard railing

Base cabin standard features:

- 4x4" treated skids
- 2x4" treated floor joists on 16" centers
- 5/8" treated plywood floor
- Sidewall height: 7' standard, but 8' is available.
- 2x4" studs on 16" centers
- 2x4" rafters on 24" centers
- 6" log siding with sealer (your color choice)
- One 36" wood door that matches siding
- 2 aluminum windows w/shutters
- 1/2" plywood sheathing
- Roof pitch: 5/12
- 6" roof overhang
- Felt paper & aluminum drip edge
- Architectural 30 year asphalt shingle (your color choice)
- Unfinished interior
- You have a choice of two basic styles: door on the side or a door on the end. (You can opt to have a porch over the door as shown. You can also have a loft over the porch.)
